Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-7,9-19, drawn to an electrical motor, classified in class 310, subclass 68.
 - II Claim 8, drawn to motor with gear, classified in class 310, subclass 83.
 - III. Claims 20-24, drawn to Method for assembling, classified in class 29, subclass 623.
2. Inventions 1 and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as motor for fans with direct drive and invention II has separate utility such as any mechanical device with gear See MPEP § 806.05(d).
3. Inventions III and I,II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, invention II can be made by deferent method of assembly preparing the rotor assembly before installing in the housing for reducing assembly time, and also the method of connecting the printed board to commutator can be used in any electro-mechanical device.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. A telephone call was made to Applicant' attorney Mr. Matthew Jenkins on June 9, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Communication

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Iraj A Mohandesi whose telephone number is (703)305-3242. The examiner can normally be reached on M-F.
